not just doors...

GREAT DOORS

Hi-Insul all weather fibreglass entrance doors

Vertical Profile

Square Profile

Horizontal Profile

Combining the smooth finish look and added eco values with a front door from our Hi-Insul Fibrewood Smooth Design Series. You can expect true value in this fibreglass entry door, made of rigid SU foam core insulation between moulded fibreglass with modern styling incorporating 3 different window light options to enhance the lines of your home.

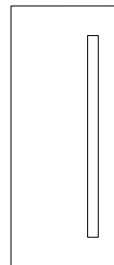

These stylish yet rugged fibreglass front doors resist the dents and dings from day-to-day traffic, and will never rust, corrode or rot. This door series leads the standard of design and functionality and incorporates all of the economic benefits and advantages of Hi-Insul fibreglass.

Rated at 'High Insulation' R11 you can be assured you are buying for the future plus enjoy the added security that our Manufacturer is ISO 9001 qualified.

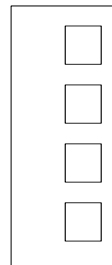

*Doors come with or without the Double Glazing Cassette Windows in frosted glass.

Plantation Doors are preferred by those in the trade and benefits include:

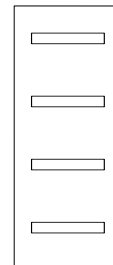

- 10 year warranty
- Can be trimmed and rebated for double door entry without an astragal
- Have a lock block on one side clearly marked
- Don't warp, split or crack and are completely water resistant
- Crafted from tough fibreglass reinforced materials and feature a Square Edge
- FibreWood doors provide approximately 4 times the insulation of wood doors through their polyurethane insulation core
- Sizes available 1980 x 760 / 810 / 860

We now supply FibreWood fibreglass doors

- With factory applied primer / undercoat
- With Paint finish - of your choice - from paint manufacturers colour chart - contact us for cost
- Drilled for handles/locks etc. - you provide diagrams showing measurements
- Rebated and drilled for double entry doors - including flush bolts supplied and fitted if required
- For our comprehensive warranty refer to www.plantation.co.nz or contact us directly
- Contact us NOW for outlets nationwide who can provide service and pricing

Note: Paint finished doors professionally finished by Plantation Doors must be drilled for hardware or, in the case of double doors, be rebated before the paint is applied. When ordering, measurements for hardware positioning should be supplied with order. All trimmed edges and cutouts for locks and hinges **MUST** be primed before hardware is fitted or warranty is void.
