not just doors...

GREAT DOORS

Entrance Doors

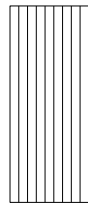

Tongue & Groove

Western Red Cedar is renowned for stability, beauty and long life. Cedar doors are suitable for exterior use in sheltered entrances, can be rebated for double door application and display a warm rich finish when varnished in accordance with our recommendations.

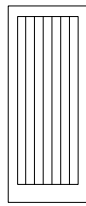

Western Red Cedar characteristically has variations in colour and grain and small knots can occur - these are not considered faults but natural to the timber. Perfect matching during manufacture is not guaranteed.

Currently Western Red Cedar is available only in vertical Tongue and Groove design. However other Tongue and Groove designs are available on request such as T & G Framed and T & G Horizontal.

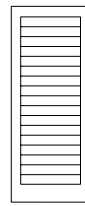

- Standard / Tongue & Groove STGV 1980 h x 810 / 860 x 40 mm T
All Heights 1980mm, Thicknesses 40mm
- Also available up to 2400mm height and with increased widths as required when ordered as a special

Tongue & Groove*

Tongue & Groove Framed

Tongue & Groove Horizontal

Plantation Western Red Cedar doors are solid timber joinery construction with galvanised pipe internal bracing to prevent bowing or cupping. Note: There is no infill or veneer used.

- Drilled for handles/locks etc. - you provide diagrams showing measurements
- Rebated and drilled for double entry doors - including flush bolts supplied and fitted if required
Flush bolts fitted in rebate for extra security

WARRANTY

Plantation Doors are crafted from high quality materials and are warranted to be free from timber defects and workmanship faults for 5 years. Claims under this warranty must be made to the supplier from whom the door was purchased. Liability shall be discharged by replacement of the door slab only and in no circumstances exceed the price of the defective door. This limited warranty should be read in conjunction with Plantation Doors full warranty.
